Rose Deeb Kitchen became an attorney despite many obstacles, including a culture that did not prioritize education—particularly in women, a divorce, and raising three children as a single parent. This award recognizes women in the Second Judicial Circuit who have overcome obstacles and hardship to become attorneys. Please tell us in a few sentences why this nominee deserves recognition and attach any relevant materials that might help to support the nomination.

The following are suggested issues that may be appropriate to address as part of your narrative to the extent they apply, but are by no means required:

- Where the nominee attended undergraduate study and law school, and the year graduated.
- Whether the nominee was awarded any scholarships or honors.
- How the nominee became interested in a legal career and circumstances which affected the pursuit of that goal.
- Whether the nominee was a non-traditional student.
- How any family obligations shaped the nominee's pursuit of the profession of law.
- Whether there were any specific obstacles that made higher education a challenge, such as disability or health challenges, cultural or language barriers, or challenges in the nominee's youth.

**The winner of the Rose Deeb Kitchen Award will be presented at TWL's general membership meeting on November 19, 2025.**
